

CC-965-...

Network Type : MV

Voltage detector 25 kV for catenaries. K fitting with contact hook electrode.

Application:

- Voltage detector with integrated electrode extension to check the absence of voltage avoiding influences.
- Type S (catenary): acoustic and optical signals.
- Voltage use: 25 kV.
- Can be adapted on stick types K fitting.

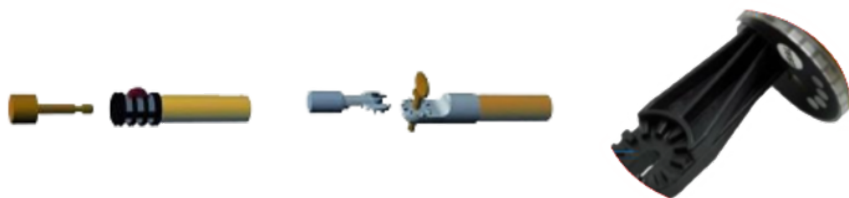

Features:

- Voltage range: 25 kV.
- Electrode extension length: 700 mm.
- K fitting.
- Ur: 25 kV.
- Built-in self test.
- Robust thermoplastic housing.
- 360° visual indication.
- Temperature range: class N according to IEC 61243-1.
- Indoor/Outdoor use and under rain condition.

Composition:

- K: universal for sticks with K fitting.
- Contact hook.
- Supplied in a bag [M-882927](#).

Référence	Description	Dimensions	Voltage range	Frequency	Weight (kg)
	Fitting	Length (mm)			
CC-965-25-K	K	920	25 kV	50 / 60 Hz	0,60
