

MS-918-..

Network Type : LV

Voltage detector 12 to 900 V AC. Phase rotation. Probe Ø 2 mm L: 19 mm. LED.

Application:

- Check the presence of voltage.
- Checks voltage levels from 12 to 900 V AC, 12 to 1 000 V DC (according to models).
- Sound and light continuity for a non-live circuit (threshold of 80 Ω).
- Search for the polarities of a DC circuit.
- Unipolar phase identification.
- Phase rotation detection check (two-wire method).
- For indoor/outdoor use.

Features:

- Fitted with test lead points Ø 2 mm L: 19 mm.
- Total safety with hazardous voltage indicator light (> 50 V).
- Protection level: IP65/IK06.
- Self test button to discern the verification of the good functioning and the continuity function.
- Completely modular and adjustable to eclipse sockets.
- Equipped with a lighting lamp at the measuring point.
- LED display.

Optional accessories:

- Carrying bag with belt loop, Ref. [M-87285](#).
- Holder, Ref. M-952325.

Référence	Frequency	Weight (kg)
MS-918-L	50 - 400 Hz	0,35
