

Standards NF EN 20345 ST HTA 70 A (RTE SERECT) ASTM F2413:2018 (18 kV / 1

Safety shoes with insulating sole, leather and low type

Application:

- Safety shoes, low and leather type, providing electrical hazard resistance up to 18 kV according to ASTM F2413:2018.
- To be used inside or in a dry environment.
- Safety shoes with insulating sole specifically designed for the electricians, industry, building, oily and smooth soils.

Features:

- · Each insulating sole tested at 5 KV.
- Shoes with leather and breathable liner microphone.
- Anti-penetration textile sole.
- Protection cap 240 J (20% above the standard).
- Slip resistance: SRC. Torsion resistant sole.

Reference	Size	Voltage		
		Operating Voltage AC	Operating Voltage DC	Weight (kg)
MV-222-40	40	1 000 V	1 500 V	1,37
