

MC-14..

Network Type : LV

Articulated clamp. Capacity: flat 5 mm and round bar from 6 to 10 mm

Application :

- Insulated micro-clamps for LV shunts.
- For maintenance and short-period operations.

Features :

- Maximum operating voltage : 1000 V AC - 1500 V DC.
- Body made of copper aluminium.
- Entirely insulated.

| Ref | Dimensions | Weight (kg) | Voltages for use | |
|--------|--------------|-------------|----------------------|----------------------|
| | | | Operating Voltage AC | Operating Voltage DC |
| MC-142 | 33 x 38 x 58 | 0.14 | 1 000 V | 1 500 V |
