

MS-920-..

Network Type : LV

Low Voltage detector and voltage multitester DETEX with carrying bag

Application:

- Check the presence of voltage.
- Voltage measurement: up to 690 V AC and 950 V DC.
- Audible continuity test (< 100 Ω).
- Phase pole identification.
- DC polarity identification.
- Phase rotation check (2 lead method).

Features:

- Fitted with IP2X test lead points with retractable sleeves.
- Three digit colour LCD screen display (red and blue).
- Push-button for the self-test and for the continuity test (100 Ω).
- Indicator light when voltage is dangerous (> 50 V).
- Completely modular and adjustable using type E plugs.
- Lighting feature to light on the working area.

Composition:

- Supplied with soft carrying case and belt loop Ref. [M-87285](#).

Optional accessories:

- Holder, Ref. [M-952325](#).
- Contact probes for L.V. detectors for installation and sidewalk boxes. Ref. [M-8013](#).
- Contact probes for L.V. detectors for flight path. Ref. [M-8014](#).
- Hand stick & stick extension. Ref. [M-951143](#).
