

CGM-...-800

Network Type : MV

Long electrical insulating gloves with mechanical protection.

Application:

- Long insulating gloves enabling to protect the arm.
- Wellfit finish: soft, supple, durable and ergonomic with high flexibility to ease the work.
- Resistant: latex with reinforced mechanical protection against tearing. To be used without over-gloves.

Features:

- CGM-0-09-80: Long electrical insulating gloves, class 0 (1 000 V AC, 1 500 V DC). Length: 750 mm. Straight shape.
- CGM-2-XX-800C: Long electrical insulating gloves, class 2 (17 000 V AC, 25 500 V DC). Length: 800 mm. Belt cuff.
- Cut edges.
- Material: bicolor natural latex. (exterior: orange, interior: natural).
- Traceability through flashcode on color-coded label. The color is according to the class.

Reference	Size	Length (mm)	Class	Voltage		ATPV (cal/cm ²)	Arc Box Test	Category
				Operating Voltage AC	Operating Voltage DC			
CGM-2-09-80C-NFC-E	9	800	2	17 000 V	25 500 V	12	7kA / 30 cm	RC
CGM-2-10-80C-NFC-E	10	800	2	17 000 V	25 500 V	12	7kA / 30 cm	RC
