CATU’s latest range of safety shoes with insulating sole provides good foot protection and perfect electrical insulation for voltage ratings up to 1000 V. It meets the main requirements of the European directive 89/686/EEC for personal protective equipment: innocuousness, comfort, strength, safety and prevention of falls due to slipping, as confirmed by the CE marking.

**WARNING**
- Safety shoes with insulating sole should not be used instead of other PPE, but as an additional protective item.
- Antistatic shoes will not protect from electric shock.

**ELECTRICAL INSULATION FOR USE INDOORS OR IN A DRY ENVIRONMENT CLASS 0: 1000V.**
- Tested according to the test setup described in the Technical Specifications RTE SERECT no. ST HTA 70A:
  - Proof test voltage 5 kV/3min.
  - Withstand voltage 10 kV.
- Tested according to standard ASTM F 2412 : 2005.
